In recent months there has been a general trend by the Tier 1 carriers to increase costs to you the end user. Ask us how we can save you're hard earned \$\$\$.

Where do you see your business in 5 or 10 years? Ask us how we can help you with technology such a fixed data in terms of fibre solutions that can drive your business into the next exciting phase for you with no hassles

Telstra Mobile Unlimited Plans from \$89 with 3GB of monthly data allowance versus Telstra retail \$135 per month - \$46 per mobile in savings

VoIP? You've all heard about it, you all probably know a little about it & know its cheap but does it work & can you take advantage of it without having to spend large amounts of money up front?

At Spinktel, we pride ourselves on offering to our clients the best possible products at affordable prices. Therefore, in most cases you don't have to spend a lot up front to benefit hugely in your ongoing usage costs. Typically speaking a VoIP telephone service is up to 50% cheaper than your traditional hardwired voice services. In addition, VoIP offers to you a vast list of possible improved services. Eg/. video calls from your desk – save you thousands in interstate travel costs

"Quote of the Month"

Bill Gates wasn't kidding when he said:

“ If your business is not on the internet, then your business will be out of business. ”

-Bill Gates, Founder of Microsoft

"Telco Tips"

Telstra 24/7 app – allows you to follow your daily voice & data usage & historical information

Alternatively to check your data usage daily if on the Telstra network, simply txt the word 'use' to '176' & instantly it will tell you how much data you have used in any one billing period

Optus mobile data usage – download the "My Optus" app & follow your daily voice & data usage

Another Optus way is to text the number "1" to "9999" and it will SMS you back a usage report on your account.
